WURZELKINDER

SUMMER PROGRAM 2025

**Join us for a summer of five,
thematic and diverse weeks of fun!**

Hours: Mo-Fri from 8:30 am to 3:55 pm

Address: 807 Classon Ave Brooklyn, NY 11238

Tuition: Each week is \$750

Summer Program is open to all children ages 2-5.

STEM Water Week

07/07/25-
07/11/25

Our kickoff to the summer to beat the heat! We'll splash right into water-based, sensory activities, from aquatic marble runs to trips to local fountains and the Splash Pad at Prospect Park. We will spend each day in our bathing suits.

Wildlife and Habitats Week

07/14/25-
07/18/25

Each day opens up a geographical dive into new regions of the world as we learn about the animals that inhabit them. The week is filled with animal movement play, wildlife crafts, and even viewing live streams of animal reserves.

Games Week

07/21/25-
07/25/25

Learning the ins and outs of games! Explore puzzles, memory games, movement activities, and creative challenges—all building focus and frustration tolerance. The week wraps up with children designing their own game!

Handicraft Week

07/28/25-
08/01/25

A tactile, textile-focused exploration of different types of fabrics and textures. Our hands will be wrapped around yarn crafts, simple embroidery exercises, and stitching activities fostering fine motor skills, patience, and creativity.

Art Week

08/04/25-
08/08/25

An exploration of different artists and their techniques: Hunderwasser, Haring, Basquiat, Kusama, and others. We'll draw influence from artists and our environment by visiting local murals in a week that will culminate in a gallery walk.
